

Energy Safe Kids Program Correlations

Virginia 4th Grade

Virginia Health and Science Standards

Healthy Decisions

4.2 The student will describe health concepts and behaviors that prevent illness, disease, and injury, and that promote positive relationships.

h) Explain ways to take personal responsibility for exhibiting healthy practices within the school and community setting.

The Columbia Gas Energy Safe Kids program covers safety practices: if you suspect a natural gas leak, stop what you are doing, leave immediately, tell an adult and call 911 and Columbia Gas.

i) Explain the health consequences of not following safety practices (e.g., seat belt and helmet use, home fire escape plan, swimming safety, sports safety).

The Columbia Gas Energy Safe Kids program covers safety practices: not playing on gas meters and pipeline equipment and not moving marker flags.

Earth Resources

4.9 The student will investigate and understand important Virginia natural resources. Key concepts include

c) minerals, rocks, ores, and energy sources.

The Columbia Gas Energy Safe Kids program covers renewable and nonrenewable resources, natural gas formation, properties of natural gas.
