

# Electrical Safety Tips

We use electricity in many ways...

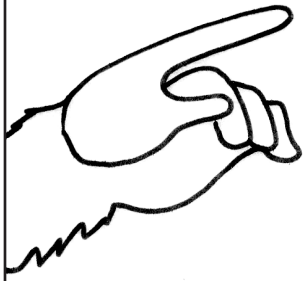

REMEMBER —  
Learn to use  
electricity SAFELY  
so you won't get hurt!

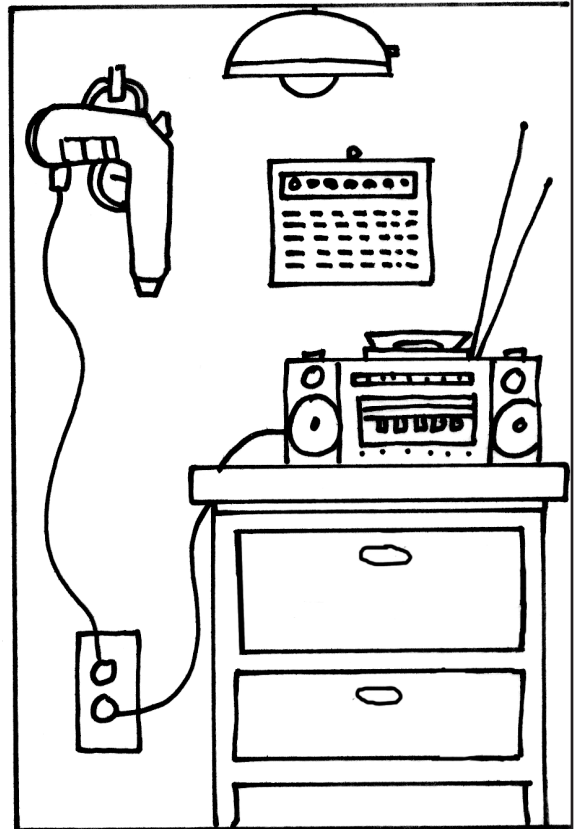

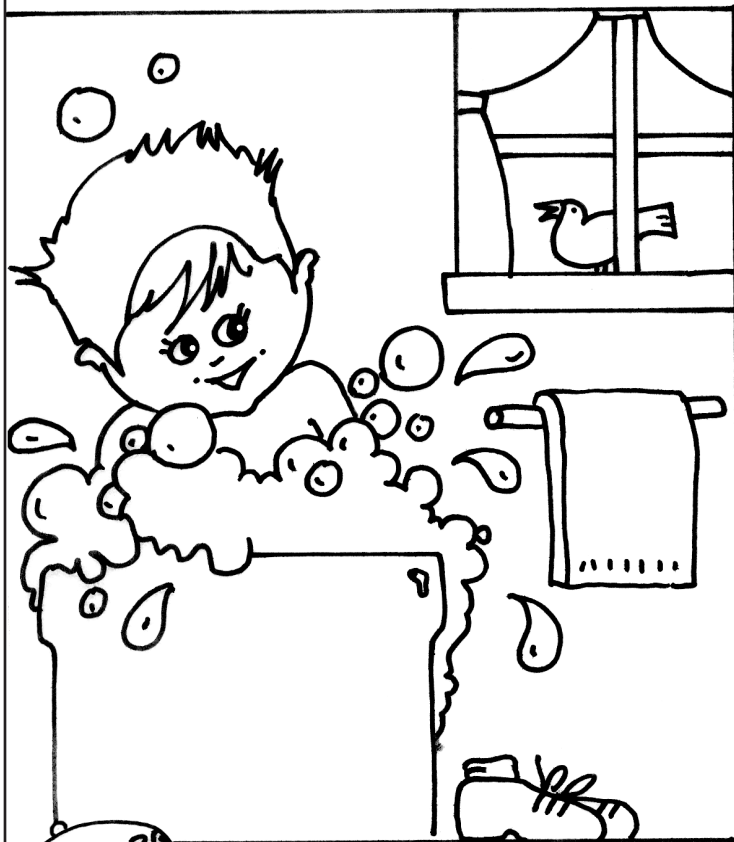

Make sure the  
TREE you  
climb is not  
near a  
POWER LINE.

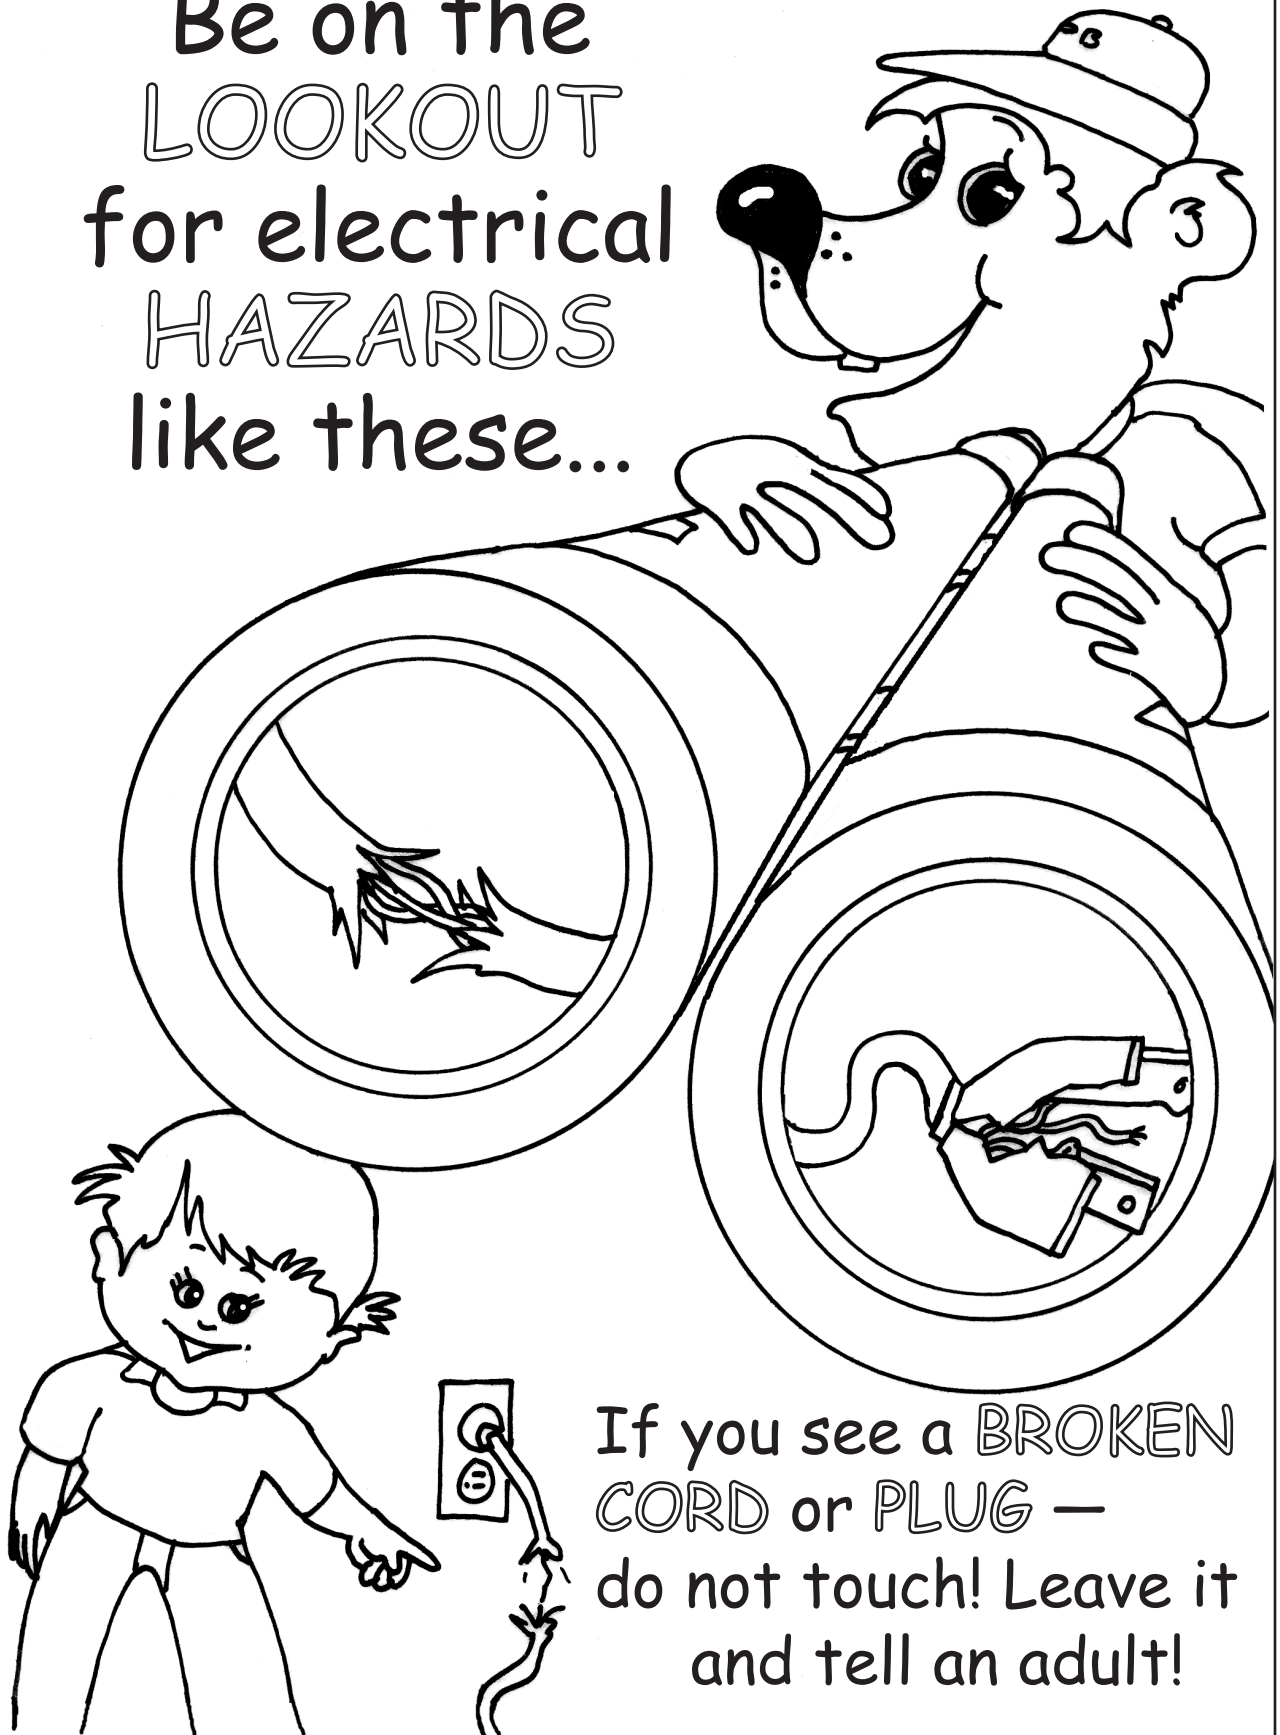

BE CAREFUL to keep  
electrical appliances  
away from WATER.

REMEMBER — if  
your hands are WET, never  
touch an electric cord or  
appliance!

Be on the  
LOOKOUT  
for electrical  
HAZARDS  
like these...

If you see a **BROKEN**  
**CORD** or **PLUG** —  
do not touch! Leave it  
and tell an adult!

LOOK UP  
before flying a  
kite. Play  
SAFELY  
away from  
POWER  
LINES.

If your kite gets near a power line, **LET GO!** Have an adult call the power company if it gets caught in the wires. Do not touch the string.

Tell your friends,  
"IT IS SMART to be  
CAREFUL around  
electricity!"

Always follow  
safety rules. Do not let  
an ACCIDENT spoil  
your FUN.

Do not play  
around  
ELECTRICITY!
